Terrapin Tours Awards \$1,250 to New Hampshire High School Students Through Travel Scholarship Program

North Woodstock, NH: Terrapin Tours recently awarded \$1,250 in scholarships to three New Hampshire students to put towards their school sponsored or education-based travel opportunities. The scholarship fund – which is part of Terrapin’s “Give Back Initiative” announced earlier this year - is available to New Hampshire High School students with the goal of the helping students experience cultural, educational, and personal growth through travel.

Terrapin Tours owner, Kelly Cooke, participated in an education-based tour to Europe as a high school student and is excited to support students that have the same opportunity. “Traveling to Europe at a young age inspired me and helped shape my personal and professional career” explained Mrs. Cooke. A travel industry professional for nearly 20 years, Mrs. Cooke has seen first-hand the benefits of travel, “Whether it’s the chance to gain independence and confidence or to deepen your knowledge and understanding of other cultures, the benefits of travel are endless. I am thrilled that Terrapin Tours can support students in their quest to learn and grow through travel”.

Terrapin Tours is proud to provide support to this year’s scholarship recipients as they travel to Costa Rica, Spain, France, and Ireland. Scholarship recipients include Mary Rogers of Winnisquam Regional High School; Lily Sabol from Hopkinton High School; and Kamryn Compton, who will be attending the University of New England in the fall. All of these hard-working students demonstrated strong commitments to furthering their education through their travel opportunities, and deepening their knowledge and understanding of other cultures.

While all funds have been awarded for this year, Terrapin Tours looks forward to continuing their scholarship program and will begin accepting applications again in 2019.
